

EXCELLENCE

There is no compromise on excellence.

Screen Printing
Services

Excellence as Our Standard Product

Recognized as one of the industry's foremost screenprinters, our medium and large format multicolor presses produce only **excellence as our standard product**. At Joliet Pattern we have built a reputation for creating solutions for difficult projects and applications. We have become well known for our ability to print 4 color process using custom formulated UV inks, which also help to **maximize color vitality and weatherability**.

Ink coverage three to four times thicker than offset printing adds **color brilliance and depth** unachievable by any other print process. State of the art describes our presses, pre-press area, ink mixing, color matching and training. Our separate 6 color in-line presses allow us to quickly proof 4 color process jobs has created a **value of convenience for our clientele**, as well as build up confidence in our excellence. Our direct to screen process eliminates the need for film and its environmentally negative characteristics in our progress toward **sustainable processes**.

Lüscher JetScreen
