EQUIPMENT SPOTLIGHT

By eliminating the need for costly alternatives, our state of the art Zund XL substitutes costly man hours with precision *routing* of your Festival signage or *kiss cuts* that sheet of stickers you need for tomorrow. Working directly with the programs our industry already relies on, the Zund XL automates all of our cutting / trimming functions, streamlining efficiency and heavily increasing our productivity with the ability to quickly cut that one sign this afternoon or the thousand you need by Friday.

Whether your piece requires scoring, creasing, a 45 degree cut, is printed on corrugated plastic or on leather, our Zund XL Graphics Cutter, along with our array of digital and screen print solutions, is ready for the challenge.

Zund XL 3000 Graphics Cutter
86.5" W x 118" L
industry defining speed & quality
contour cutting and routing
through-cutting / kiss-cutting
engraving, trimming, & creasing
